vocal / songwriting
coach

Caroline Melcher
Music therapist

Joey Beebe
Project Director

WWNMU Cultural Affairs hosts CAMMO – Center for American Military Musical Opportunities, offering a free, day-long songwriting workshop for military audiences. CAMMO's mission is to train and educate service members, veterans, and family members in music industry career opportunities. **Workshop to be followed by a public presentation at Light Hall Theater.**

CAMMO provides music as therapy and music healing services that focus on the unique challenges of being a service member, veteran, or a family member. CAMMO is on the front lines of building a community for military music, creating opportunities for and mentoring musically gifted military members to join the music and entertainment industries.
