As construction is continuing to wrap on the I-25 Business Loop Reconstruction Project in Truth or Consequences, crews have determined that some of the concrete pavement placed on the southernmost roundabout need to be removed and replaced.

Beginning **Monday, April 1** and lasting for about **three weeks**, through **Monday, April 22, 2024**, the northbound lane of North Date Street will be closed from just above the parking lot to the Sierra County Government Building to the second roundabout. There will also be occasional closures of the northbound lanes at the second roundabout.

Northbound traffic on Date Street can use East 9th Ave to North Silver Street to Silver Street to Smith Street as a detour. Northbound traffic on Date Street can access New School Road by taking Barton Street to North Pershing Street.

We apologize for the inconvenience. By closing the northbound lanes entirely, crews estimate they can reduce the repair time from six weeks to three weeks.

Motorists are encouraged to use extra caution in this construction area, obey lower posted speed limits and allow extra time to reach their destinations.

Regular work hours will be **7 a.m.-5 p.m. Monday-Friday** although the contractor may work longer hours or on weekends as needed. **Access will be maintained to all businesses during construction.**
